DETAILED ACTION

Election/Restrictions

Claims 3-4, 6-13, 15-16, and 18-19 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 3-4, 6-13, 15-16, and 18-19, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, these claims are amended to change the dependency and hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement as set forth in the Office action mailed on 9/13/05 is hereby withdrawn. In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claims including all the limitations of an allowable product claim or rejoined process claim are presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest either in singularly or in combination the following limitations and other elements in the claims. References Tsuji (US 6,350,998) and Tanaka et al. (US 6,635,908) do not disclose:

- A single or multiple layers of InGaAs with different compositions of In, Ga, and As without containing of Al for absorption layer.
- A highly doped-thick layer of InGaAs for second ohmic contact, where a window is created for incident light to reach the thin layers and where window is a u-shape or horse-shoe shape.

Therefore, the above references do not disclose the claimed invention of present application and claims 1-21 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
